Disney+ Certified

Disney+ brings together the best stories from Disney, Pixar, Marvel, Star Wars, National Geographic and Star. It streams all your favourites and more.

Low-noise and Efficient Cooling System

Multiple Compatible Interfaces

Introducing the Smart Auto Focus Android TV OS Projector, the pinnacle of home entertainment technology. This state-of-the-art projector is designed to bring the cinema experience right to your living room, offering native 1080P resolution for breathtakingly clear and detailed visuals. Whether you're watching the latest blockbuster, streaming your favorite series, or engaging in a high-stakes gaming session, this projector delivers unparalleled image quality.

One of the standout features of this projector is its advanced auto-focus technology. Gone are the days of manual adjustments and blurry images. With intelligent auto-focus, the projector instantly calibrates the lens to provide sharp and precise visuals every time. This feature ensures that you can enjoy a hassle-free setup and get straight to the action without delay.

Connectivity is key in today's digital world, and this projector excels in that area with its 5G WiFi and Bluetooth capabilities. The 5G WiFi provides lightning-fast internet speeds, enabling smooth streaming of high-definition content without buffering. The Bluetooth functionality allows you to connect various devices, such as speakers, headphones, and game controllers, enhancing your

overall experience. Whether you're hosting a movie marathon or a gaming night, the seamless connectivity options make everything more enjoyable.

The projector runs on the Android TV OS, granting you access to a vast array of apps and streaming services. From Netflix and Hulu to YouTube and Spotify, you can easily find and enjoy your favorite content with just a few clicks. The intuitive interface makes navigation simple, even for those who are not tech-savvy. Additionally, with Google Assistant built-in, you can use voice commands to search for content, control playback, and even manage smart home devices.

Designed with versatility in mind, this projector is suitable for various settings. Its compact size and sleek design allow for easy placement in any room, whether it's a dedicated home theater, a living room, or even a bedroom. The powerful built-in speakers provide high-quality audio, but for an enhanced sound experience, you can connect external speakers via Bluetooth.

The native 1080P resolution is complemented by vibrant color reproduction and excellent contrast ratios, resulting in a picture that is both lifelike and immersive. The projector supports a range of input options, including HDMI, USB, and AV, making it compatible with numerous devices such as gaming consoles, laptops, and Blu-ray players.

Energy efficiency is another highlight of this projector. It utilizes advanced LED technology, which not only provides a bright and vivid display but also ensures a longer lifespan and lower power consumption compared to traditional lamp-based projectors. This makes it an environmentally friendly choice that doesn't compromise on performance.

In summary, the Smart Auto Focus Android TV OS Projector is a feature-rich, high-performance device that brings the ultimate viewing experience to your home. With its native 1080P resolution, advanced auto-focus technology, 5G WiFi, Bluetooth connectivity, and the expansive Android TV OS, it offers everything you need for endless entertainment. Easy to set up and use, this projector is the perfect addition to any home theater system. Elevate your entertainment with this exceptional projector and enjoy the best of home cinema.
